

PIES

Your pie arrives at the peak of freshness and can be served up to five days from the day you receive it.

Fruit pies are best stored in their pie box, on your kitchen counter, at room temperature. We do not recommend refrigeration, it causes the crust to become soggy.

Pecan, Pumpkin and Mincemeat Pies should be refrigerated.

Warm Serving Suggestions

Enjoy the fresh fruit and flaky crust *warm* by simply covering the pie loosely with aluminum foil and heating in a preheated conventional oven for 20 to 30 minutes at 225 degrees.

Do not reheat Pumpkin and Pecan Pies.

If you are not going to serve your pie in five days, we recommend freezing it. Pies may be stored in the freezer for up to 2 months.

To thaw (if frozen): Simply thaw at room temperature at least 8 hours before serving.

CAKES
